Skenario :

### Scenario for plenary discussion

A 'woman' (A), 27 years of marriage with a man (B), 30 years in the 'JJ' city, with no guardian of the family of the 'woman'. While visiting the 'PP' town, the birthplace of 'woman', the family of the 'woman' (A) is shocked, because 'woman' (A) is in his little time on the 'PP', is known as a man. The family of a man (B) requires the court in relation to feel cheated. The court asked the doctor as an expert witness to determine the sex 'women' (A) are. Results of physical examination (A) are found both breasts enlarged, very small penis, vagina is not found, found two small testes. Then the doctor plan the supporting laboratory.
